

Which Jetmaster Fireplaces Complement Contemporary Decorating?

The cheats answer to this question would be, 'almost all of them', but realistically there are some Jetmaster Fireplaces which simply 'fit' contemporary styled décor better.

It isn't hard to see why Jetmaster are one of the Gas Log Fire Company's most highly sought after brands. Their extensive range of finishes, styles, sizes, and grills, defines Jetmaster Fireplaces as one of the most adaptable heaters coordinating with nearly all styles of décor.

Not only do Jetmaster Fireplaces fit most of the upwardly trending modes of decorating, such as Minimalist/Modern and Nordic, but their Gas Coal Burner Grates and Curve Wood Heaters perfectly express the elegant simplicity of Contemporary Décor.

To define Contemporary Style think of *no curtains, nothing to dust, and no frills, flounces or over-done embellishments*. If you are overly fond of simple, well placed, furnishings combined with open spaces, then the chances are you are a devotee of Contemporary Styled Décor as described by [Houzz](#). There aren't too many wood fires that have such a stunningly uncomplicated appearance as Curve Wood Fireplaces, or is such an agreeable addition to Contemporary Design as Jetmaster Fireplaces Gas Pebble or Coal Burner Grates.

Forget an awkward, bulky shaped wood firebox dominating your living space; Jetmaster's Curve Wood Fireplaces precisely express the elements of Contemporary Style. The simple, raised, curved glass inserted, front-opening door of the fireplace, and offers elegance without compromising any of the strong Contemporary Design elements. Cleverly, Jetmaster Fireplaces have integrated the Stainless Steel handle at the front of the fireplace to complement its stylish design features. Although Jetmaster's Curve Wood Fireplace is free-standing with a generous space between the floor and fireplace allowing for wood storage, we strongly suggest complimenting your décor, by having separate wood storage in a geometrical, clean-lined storage unit close-by.

Similarly, Jetmaster Fireplaces manufacture their range of Gas Pebble or Coal Burner Grates, which offers such a large choice of styles it is easy to find one that also perfectly integrates into Contemporary Styled Décor. With such versatility, it's easy to see why these are one of the most popular lines we carry at the Gas Log Fire Company. Stylists who are looking to compliment contemporary features should not discount the simple, clean lines of Jetmaster's stainless steel [Topaz](#) designer units and grills. Most of Jetmaster's Topaz range comes in stainless steel, or black outer facings, and realistic, simulated coal, log or pebble burner materials. We suggest that either the pebble or coals would integrate well within Contemporary Style guidelines of smooth, simple shapes and textures.

All Jetmaster's Topaz Range come with all the exceptional features that define Jetmaster Fireplaces as a quality product,

- a range of sizes
- enough radiant heat to warm even the coldest of toes
- self-controlled heat settings
- reliable piezo ignition

- can usually be inserted into pre-existing fireplaces
- Jetmaster's firebox 15 year guarantee
- high output heating efficiency

Remember, if you are seeking to furnish your home with Contemporary Décor features, then the Jetmaster Fireplaces Curve Wood and Topaz range of heaters are designed to be compatible with the rest of your furnishings.
