

Real Flame Fireplaces Exuro -The Ultimate In Outdoor Heating

On a chilly Melbourne night, it doesn't get much better than sitting safe and warm close by **Real Flame Fireplaces** new **Exuro Gas Fireplace**. Specifically designed to stylishly integrate into most décors, and still generate the cosy ambience you expect from all Real Flame Fireplaces, Exuro will definitely be an attention drawing addition. You can rely on the Exuro range of outdoor heating modules to be as well built and dependable as all heating units manufactured by the innovative Australian company, Real Flame Fireplaces.

Built durable to withstand Melbourne conditions, the Exuro range of gas fireplaces, have the customary Real Flame toughened glass outer-casing. Developed to withstand the high temperatures of a gas fire, the glass outer-casing requires very little cleaning, and houses stylish black pebbles that perfectly complement both modern and contemporary outdoor living areas.

Because they don't need a fixed flu system, one of the strongest drawing cards of all models in Real Flame Fireplaces Exuro range is their amazing flexibility of installation. Exuro heating can be fitted into almost any type of feature walls. And their fascia surrounds are available in both black and stainless steel, which means they can also coordinate with nearly every decorating style, without be overtly flashy or dominating.

Another added bonus of installing one of the Exuro models in your outdoor living area, is that they are fully compatible with both natural and LPG gas. So if you need a gas fireplace for a small property that doesn't have access to a natural gas supply, you are still able to enjoy perfect, clean outdoors heat from Real flame Fireplaces Exuro models.

One of the greatest benefits of having a gas fireplace installed is you get to enjoy all the hypnotic beauty of their mesmerising flames without all the dust, wood chips, mess and soot of a wood fired heating unit. And better still, no one has to 'set up' and get the fire burning. Real Flame Fireplaces Exuro models all have one touch electric ignition, which means all you have to do is switch it on and let its warmth permeate your living area. Quick, perfect heat for a night's outdoor entertaining.

Come into our **Gas Log Fire Company** showroom and see how good the Exuro Outdoor Fireplace really is. We have been an outlet and installation service for gas fireplaces for over 20 years, so our friendly consultants can answer nearly every fireplace question you can think of. Real Flame Fireplaces have also had extensive, long-term experience, but with Design and Manufacturing of Fireplaces. One of the reasons we're proud to be one of their Melbourne outlets is Real Flame always produce a high-quality unit that is made in Australia, specifically to suit Australian conditions.
