

XLR PLUS

Direct Vent Gas Fireplace

XLR-PLUS-AU
XLR-PLUS-HE-AU

HEAT & GLO™

No one builds a better fire

Distinctive Modern Design

Stunning modern landscape design, incorporating all the technological features that Heat & Glo has become famous for. The sleek slimline looks merge simplicity, elegance and practicality... It is now also available as a 'High Efficiency' model - all the same features, plus greater efficiency and heat output... and a distinctive new HE front.

Right: XLR PLUS-HE

Shown with HE-Tonic Graphite front with logs.

Cover: XLR PLUS

(MAIN) shown with Tonic Stainless Steel front and pebbles.

(BOT LEFT) shown with Tonic Ebony high gloss front and pebbles.

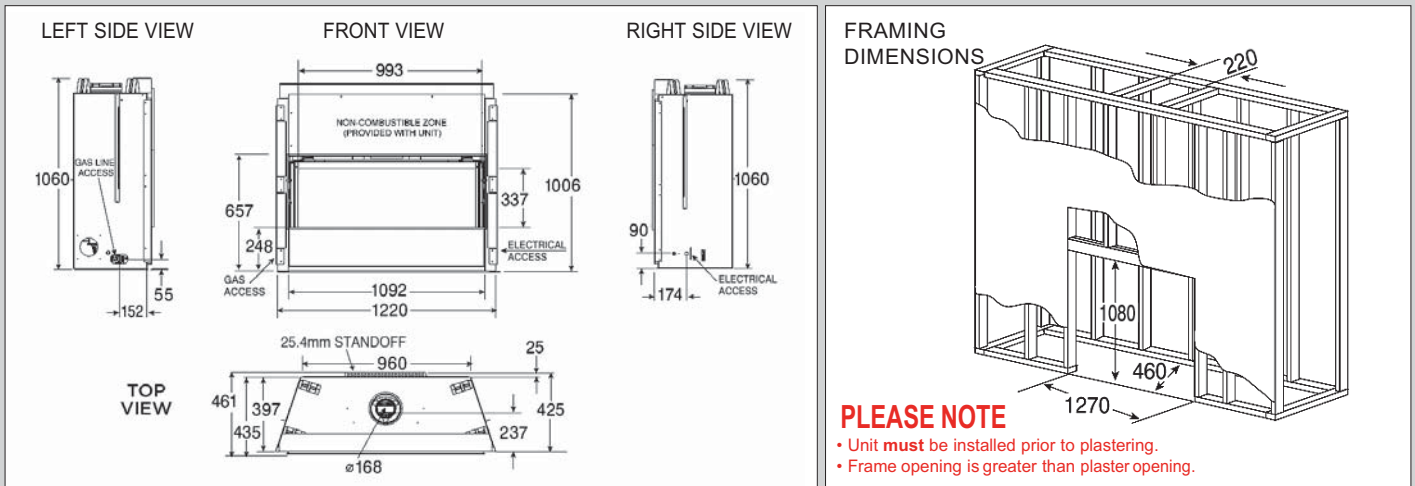

(BOT RIGHT) HE model shown with Tonic Graphite-HE front and pebbles.

PLEASE NOTE:

1. Combustible material should not be installed over the face.
2. Dimensions shown above are in millimetres. Reference dimensions only. We recommend measuring individual units at installation. Assume the use of 10mm plaster.
3. Heat capacity for all units is indicative, and dependent on a number of factors: (1) Room size (2) Ceiling height (3) Floor covering (4) Window coverings -blinds/curtains/double glazing (5) Other factors affecting heat loss
4. Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically.
5. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not the true representation of the fireplace and/or flames.

Features: Modern slimline design, shallow depth, zero clearance, Intellifire PLUS Ignition System, balanced flue technology, selection of fronts, colours and media. Maximum thermal efficiency rating of 4.2 stars (based on highest rating for certain flue runs).
